

ARITI CHAWLA

Data Analyst | Backend Developer | Python Developer
+91-9773804367 | aritichawla2110@gmail.com | [linkedin.com/in/ariti-chawla](https://www.linkedin.com/in/ariti-chawla) | Delhi, India

PROFESSIONAL SUMMARY

Final-year CS Engineering student with 2+ years of experience in data analysis, machine learning, ETL pipeline design, and backend development. Proficient in Python, SQL, Power BI, Tableau, Node.js, LangChain, RAG, and Google Gemini Pro. Interned at DRDO (Ministry of Defence) applying XGBoost, SHAP & LIME to real-world cryptographic ML problems. Proven communicator with cross-functional Agile/Scrum team experience and a track record of delivering data-driven solutions.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, R, VBA, Scripting

Data & ML: pandas, NumPy, scikit-learn, XGBoost, SHAP, LIME, Neural Networks, EDA, Statistical Analysis, Predictive Modeling, A/B Testing, Feature Engineering

BI & Visualization: Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, VLOOKUP, Macros), Matplotlib, Seaborn, KPI Dashboards, Reporting

Backend & Databases: Node.js, Express.js, FastAPI, REST API, JWT, PostgreSQL, MySQL, MongoDB, Cassandra, Astra DB, SQLite, Vector Databases, Query Optimization

AI / GenAI: LangChain, RAG, Google Gemini Pro, Prompt Engineering, Vector Embeddings, NLP, Semantic Search, Document Parsing

Tools & Platforms: Git, GitHub, React.js, Streamlit, Agile/Scrum, Jira, UiPath RPA, SAP Automation, MATLAB, CI/CD, Microservices Architecture

WORK EXPERIENCE

Data Science Intern | SAG, DRDO – Ministry of Defense Delhi

Dec 2025 – May 2026

- Designed ETL pipelines to generate, clean & preprocess 1M+ RC4 keystream samples; conducted EDA, statistical analysis & feature engineering on cryptographic datasets to identify byte-level bias patterns.
- Built and trained XGBoost & ANN classifiers with SHAP and LIME explainability frameworks to quantify key-to-output leakage; delivered structured technical findings report to senior DRDO research staff.

Springboard Virtual Intern | Infosys Springboard Remote

Jan 2026 – Apr 2026

- Developed the Crypto Portfolio Manager project under an Agile/Scrum curriculum, applying AI-driven analytics workflows and presenting actionable data-driven insights to cross-functional stakeholders in formal review sessions.
- Strengthened foundations in requirements gathering, software documentation, and collaborative problem-solving within a structured virtual team environment.

Marketing Design & Data Analytics Intern | Reve Cult Remote

Sep 2025 – Dec 2025

- Analyzed campaign KPIs (CTR, conversion rate, audience reach) using Excel & Power BI; designed 15+ data-driven marketing creatives contributing to measurable audience engagement improvement.
- Collaborated cross-functionally with a 5-person marketing team to align data-driven content strategy with KPIs and quarterly business objectives.

PROJECTS

RC4 Cryptanalysis & ML-Based Keystream Bias Detection | Python, XGBoost, SHAP, LIME, ANN, ETL

<https://github.com/ariti2110/rc4-ml-ann-shap>

- Built ETL pipelines for 1M+ RC4 keystream samples and trained XGBoost & ANN classifiers with SHAP/LIME explainability for DRDO, delivering interpretable key-to-output leakage analysis on cryptographic data.

Crypto Portfolio Manager | Python, Node.js, Express.js, React.js, PostgreSQL, JWT, REST API <https://github.com/ariti2110/crypto-investment-manager>

- Full-stack cryptocurrency portfolio management app with RESTful API backend, JWT authentication, AI-driven investment analytics engine, and interactive performance dashboards built under Infosys Agile curriculum.

FarmAI – AI-Powered Agricultural Intelligence Platform | Python, ML, NLP, AI, Data Analytics <https://github.com/ariti2110/farmAI>

- AI platform delivering intelligent crop recommendations & yield predictions using ML/NLP. Won the Case Clinic Game at Geek Room – 3 Community Meetup with a team of 6, earning ₹10,000 prize money.

Text-to-SQL LLM Application | Python, Google Gemini Pro, SQLite, Streamlit, NLP <https://github.com/ariti2110>

- Natural language to SQL converter using Gemini Pro LLM with Streamlit UI; validated across 100+ test queries, reducing manual query-writing effort by 80% and improving data accessibility for business stakeholders.

EDUCATION

B.Tech – Computer Science Engineering, SGT University, Gurugram

Sep 2022 – Jun 2026 (Expected)

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Computer Networks, Operating Systems, Statistics

CERTIFICATIONS & ACHIEVEMENTS

McKinsey Forward Program | Infosys Pragati Cohort 3 | Google Student Ambassador – Pitch Night Edition (May 2026) | British Airways Data Science Simulation – Forage (Feb 2025) | Tata Data Visualization – Forage (Jan 2025) | Modern AI Tools – Saras AI Institute (Aug 2025) | UiPath Automation Developer – SAP Specialist Diploma (2024) | HackerRank: Python, Java, JavaScript, Problem Solving | Samsung Innovation Campus: Big Data (Nov 2025 – Mar 2026)

- Winner – Case Clinic Game, Geek Room 3 Community Meetup: Led a team of 6 to win ₹10,000 prize for the most innovative AI-driven solution in a competitive case study challenge.
- 2nd Place – Mock Placement Category, Tech Fest PRADARSHAN 4.0, SGT University | Certificate of Merit – Aspiring Academic Association Award, SGT University: Recognized for academic excellence in CS Engineering.
